Illinois Central and University of Illinois Co-operate

FOR PRACTICAL EDUCATION

Build a Car Whereby College Students Can Gain Practical Knowls edge of Work.

The active-co-operation of the rall-

roads of the country with the great uni-

versities in providing for practical education in the higher ratiroad work is something yet in its infancy. Donald Rose of the Illinois Central this morning stated that the road which he represents is one of the first systems to take a step forward in this direction. In this work he states that the University of Illinois and the Illinois Centras ratiroad have joined hands in a unique undertaking that promises to revolutionize some parts of university work and to bring practical knowledge of railroad work home to students with new force. The university and the railroad have completed a test car. The

LOS ANGELES ROAD.

Chicago Times · Herald Says Some STRANGER WRITES ON UTAH Big Surprises Are in Store.

According to late rumors there is still some uncertainty regarding the building of the proposed line from Los Angeles to Salt Lake City. The work, back of which is said to be the Southern Paci-fic, is said to be conditional upon negotlations which are now pending between former Senator Clark and the authorities of Salt Lake City. It is said that Mr. Clark told the Salt Lake officials that the road would not be built unless way of terminal facilities, and that he way of terminal facilities, and that he made no definite promises as to the route of the proposed line. It is now reported that an understanding has been reached with the Union Pacific whereby the company's branch to Uvada, a point on the Utah and Nevada line, 300 miles southwest of Sait Lake City, will form a part of the new route, leaving about 400 miles to be built to Los Angeles. It does not seem probable that this long stretch of existing line will be paralleled and left uncompleted, prejudiced by reports that had come from Utah, but my fears were comwhich has grown out of the old Los Angeles terminal property has set the whole railroad world guessing, and there will likely be some big surprises when the vell of mystery is raised .-

I have, therefore, adopted a plan for advertising in magazines and the daily press America's great resorts, in which I have called particular attentions. tion to the West, and have asked the readers of the 'ad,' to write for a catalogue of our 'four-track series,' by which they will be able to get more detailed information in regard to them. I am going to continue this plan, and at our principal offices in New York and Brooklyn, as well as at Albany, Troy, Utica, Syracuse, Rochester, Buffalo, Niagara Falls and other important stations, we shall endeavor to keep always on hand supplies of the folders and books of the various lines interested in travel to the West, with a view to giv-ing persons making inquiries in regard to them such information as will be most useful to them in forming their plans for a trip.-Rocky Mountain
